Termination of student status

Termination of the Student Status

The Education Office terminates a student's status if

- **the student does not start their studies after the time available for student status suspension has passed** and did not request an additional passive semester attaching documents justifying their request via [IK-Request \(General\)](#) to be sent to the student coordinator ([BSc](#) / [MSc](#))
- **the student has not registered for the next semester for the third consecutive time, and does not start their studies after the interruption of student status**, they have received a written reminder requesting to fulfil their obligations by a specified deadline, and have been informed of the consequences of the default.
- **the student has not fulfilled 30 credits in the first 4 active semesters** from the day of enrollment (initiation of student status);
- **the student does not pay fees by the deadline** set in the payment notification.
- **the student has not completed a subject after registering for it 3 times and does not request Equity from the Dean** of the Faculty for an additional registration opportunity (**Neptun > IK-Request for Equity from the Dean**); It applies to compulsory elective subjects as well.
- **the student has not completed a subject after 6 unsuccessful exam attempts and does not request Equity from the Dean** for an additional registration opportunity (**Neptun > IK-Request for Equity from the Dean**); It applies to compulsory elective subjects as well.
- **the student cannot continue their studies with a (partial) state scholarship and does not wish to transfer to self-financed status, does not sign the Learning Agreement.** If a student does not wish to continue their studies on a state-financed/self-financed basis, i.e. he or she does not sign the university training contract by the deadline set by Education Office, the Office will terminate her/his student status.
